

Cumulative Index, 1964-1966

Page numbers of symposium and article titles are in **boldface** type.

ABDOMEN, blunt trauma to, radiologic examination, 1964: April, 121-143
delayed rupture and bleeding, 1964: April, 128
signs of bleeding, 1964: April, 123
visceral outlines, 1964: April, 121
calcification(s), differential diagnosis, in adults, 1964: April, 148
in children, 1964: April, 149
in acute abdominal disorders, diagnostic evaluation of, 1964: April, 145-159
methods, 1964: April, 145
in infancy and early childhood, 1964: April, 157
left upper quadrant, 1964: April, 151
localized in any area, 1964: April, 156
median and paramedian, 1964: April, 152
pelvic, 1964: April, 153, 158
right lower quadrant, 1964: April, 154, 158
renal and adrenal areas, 1964: April, 151, 159
right upper quadrant, 1964: April, 148, 158
widespread, 1964: April, 157, 158
in plain film examination of biliary tract, 1966: Dec., 464
cancer of, in aged persons, radiation therapy, 1965: Aug., 268
chest and, anatomic, neurologic and pathologic relationships, 1964: April, 3
contour shadows of, in acute cholecystitis and pancreatitis, 1964: April, 95

Abdomen (Continued)
mass lesions, in children, radiologic diagnosis, 1965: Dec., 363
neoplasms of, special angiographic techniques in management, 1965: Dec., 583-599
plain roentgenograms, in examination of biliary tract, 1966: Dec., 463
in traumatic lesions of kidneys, 1966: Aug., 435
of urethra, 1966: Aug., 449
of urinary bladder, 1966: Aug., 441
survey of, in diagnosis of acute cholecystitis and pancreatitis, 1964: April, 92
trauma, in children, 1966: Aug., 300
roentgenologic evaluation, 1966: Aug., 415-431
Abdominal aortography, 1964: Dec., 425-445
Abdominal disease(s), acute, diagnosis of, chest roentgenogram in, 1964: April, 3-20
radiologic, symposium on, 1964: April, 1-183
with associated roentgen findings in chest, 1964: April, 10, 18
without associated roentgen findings in chest, 1964: April, 17, 18
Abdominal mass, as indication for neonatal urography, 1965: April, 140
Abdominal roentgenogram, for location of renal calculi, 1965: April, 99
preliminary to investigation of neonatal urinary tract, 1965: April, 141
Abdominal symptoms, chest diseases causing, 1964: April, 4
Abdominal viscera, arteriovenous malformations of, aortography in, 1964: Dec., 436

Abdominal viscera (Continued)
neoplasms, aortography in, 1964: Dec., 436
tumors of splenoportography in, 1964: Dec., 456, 457
Abdominal wall, masses of, incomplete border sign in diagnosis, 1964: April, 161-166
Abscess. See also organ involved.
subdiaphragmatic or subhepatic, chest roentgenogram in diagnosis, 1964: April, 12
Abused child syndrome, 1966: Aug., 289
Acetabular angle, relation to malposition of hip, 1964: Aug., 240
Acetabular index, in evaluation of hip fracture or dislocation, 1966: Aug., 249
Achondroplasia, roentgen appearance of skull, 1964: Aug., 364
sella turcica changes in, 1966: April, 89
Acid-base balance, role of kidney in, 1965: April, 19
Acrocephaly, Apert's, skull size and shape in, 1966: April, 22
Acromegaly, osteoporosis associated with, bone remodeling rate in, 1964: Aug., 194
Actinomycin D, modification of radiation effects by, 1965: Aug., 253
Adamantinoma, pituitary. See *Craniopharyngioma*.
Adductor, tight, etiologic role in congenital dislocation of hip, 1964: Aug., 237
Adenocarcinoma, renal, in aged persons, 1965: Aug., 337
Adenoma, chromophobe, sella turcica changes due to, 1966: April, 94
pituitary, calcification in, 1966: April, 85
sella turcica changes due to, 1966: April, 81, 85
villous, colonic obstruction due to, 1964: April, 52

Cumulative Index, 1964-1966

Adenomyoma, of gallbladder. See under *Gallbladder*.
 Adenomyomatosis, of gallbladder. See under *Gallbladder*.
 Adrenal calcifications, 1964: April, 152, 159
 Adrenal cortex, hyperfunction, renal calculi associated with, roentgenographic signs, 1965: April, 97
 Adrenal gland, calcification in, 1965: April, 129
 in Addison's disease, 1965: April, 131
 choristoma of, 1965: April, 133
 neuroblastoma of, 1965: April, 136
 pheochromocytoma of, 1965: April, 137
 tuberculosis of, calcification and, 1965: April, 130
 tumors of, 1965: April, 133
 cortical, 1965: April, 135
 Age, influence on radiographic changes in sickle cell anemia, 1964: Aug., 250
 variation of radiosensitivity with, 1965: Aug., 263
 Aged persons. See also *Ceriatric*.
 active pulmonary tuberculosis in, reactivation of dormant foci as mechanism of development, 1965: Aug., 299-304
 biliary tract problems, 1965: Aug., 305-319
 chest radiograph, appearance of, 1965: Aug., 293-297
 esophagus in, 1965: Aug., 321-330. See also *Presbyesophagus*.
 kidneys in, radiologic evaluation, 1965: Aug., 331-344
 radiation therapy in, applications of radioisotopes, 1965: Aug., 272
 cancer at specific sites, 1965: Aug., 266
 illustrative cases, 1965: Aug., 268, 271
 general care of patients, 1965: Aug., 264
 palliation vs. attempt at cure, 1965: Aug., 264, 266
 problems, 1965: Aug., 263-275
 split-course technique, 1965: Aug., 266
 treatment modifications, 1965: Aug., 265
 radioisotopes in diagnosis and treatment, 1965: Aug., 272
 sella turcica changes in, 1966: April, 86
 skeleton, diseases of, 1965: Aug., 280

Aged persons (Continued)
 skeleton, hypertrophic changes, 1965: Aug., 277
 roentgenology of, 1965: Aug., 277-292
 x-ray examinations of, use and abuse, internist comments on, 1965: Aug., 261-262
 Aging, effect of radiation on, 1965: Aug., 263
 Air, intraperitoneal, free, technique for demonstration of, 1964: April, 14
 Air studies. See also *Pneumoencephalography*, *Ventriculography*, etc.
 in localization of brain tumors, 1965: Dec., 522, 526
 technical aspects, 1965: Dec., 525
 Airway, in reactions to contrast media, 1965: April, 58
 Aldosteronism, renal arteriographic studies in, 1964: Dec., 473
 Allergic reactions, to contrast media, 1965: April, 60
 Amebiasis, hepatic calcification in, 1964: April, 150
 Amniography, 1964: April, 176
 Amylase, serum, determination of levels in acute pancreatitis, limitations as diagnostic test, 1964: April, 90
 Anatomy, knowledge of, in diagnosis of trauma, 1966: Aug., 246
 Anemia, hemolytic, skull changes in 1966: April, 15
 iron deficiency, skull changes in, 1966: April, 15
 sickle cell, incidence, 1964: Aug., 249
 involvement of internal organs in, 1964: Aug., 252, 257, 258
 of skeleton in, 1964: Aug., 250, 257, 258
 radiographic changes in, 1964: Aug., 250
 review of cases, 1964: Aug., 257
 radiographic manifestations, 1964: Aug., 249-259
 Anesthesia, local, in prevention of complications during vascular opacification, 1965: Dec., 457
 Aneurysm(s), arterial, intracerebral, angiography in, 1966: Aug., 338
 berry, rupture of, subdural hematoma associated with, 1966: April, 70, 217
 intracavernous, of carotid artery, 1966: April, 105
 Aneurysm(s) (Continued)
 intracavernous, of internal carotid artery, sella turcica changes due to, 1966: April, 86
 intracranial, 1966: April, 217-233
 cerebral angiography in, 1964: Dec., 523
 pathology, 1966: April, 217
 radiologic diagnosis, 1966: April, 218
 rupture of, complications, 1966: April, 226
 of abdominal aorta, aortography in, 1964: Dec., 428
 calcification in, 1964: April, 153
 of hepatic artery, calcification in, 1964: April, 151
 of renal artery, calcification in, 1964: April, 152
 in aged persons, 1965: Aug., 337
 of splenic artery, calcification in, 1964: April, 151
 of thoracic aorta, post-traumatic, 1966: Aug., 404, 406, 411
 of vein of Galen, 1964: Dec., 529
 of visceral branches of abdominal aorta, aortography in, 1964: Dec., 430
 peripheral arteriographic demonstration, 1964: Dec., 492
 subarachnoid hemorrhage due to, 1964: Dec., 523-528
 Angina pectoris, abnormal coronary circulation in, angiographic demonstration, 1964: Dec., 384
 Angiocardiography, in pulmonary stenosis, 1964: Dec., 395-407
 in valvular heart disease, morphologic and volumetric considerations, 1964: Dec., 409-423
 Angiography. See also *Angiology*; *Arteriography*.
 aftercare of patient, 1965: Dec., 464
 brachial, percutaneous, in evaluation of cerebrovascular disease, technique, 1966: April, 132
 carotid, left common, technique, 1966: April, 135
 cerebral. See also *Angiography*, *intracranial*.
 anatomy and physiology, 1964: Dec., 517
 current application and future utilization, 1964: Dec., 515-541

Angiography (Continued)
 cerebral, in demonstration of space-taking lesions, 1964: Dec., 532
 in evaluation of cerebrovascular disease, 1966: April, 131-144
 of head injuries, 1966: Aug., 335
 in subarachnoid hemorrhage, 1964: Dec., 522
 in trauma to head, 1964: Dec., 531
 in vascular occlusive disease, 1964: Dec., 518

 venous phase, diagnostic value in mass lesions of brain, 1966: April, 117-130
 complications during, prevention, 1965: Dec., 453-465
 emergencies during, department and hospital organization for handling of, 1965: Dec., 455
 hepatic, in diagnosis of malignant lesions, 1965: Dec., 577
 in liver injury due to blunt abdominal trauma, 1966: Aug., 425
 practical applications and demonstration of color subtraction technique, 1966: Dec., 571-582
 in diagnosis of traumatic lesions of head and neck, 1966: April, 53
 in evaluation of lung neoplasms, 1965: Dec., 529-542
 in localization and diagnosis of brain tumors, 1965: Dec., 518
 in retrospect and prospect, symposium on, 1964: Dec., 375-375
 intracranial. See also *Angiography, cerebral*.
 pediatric, 1964: Dec., 565
 monitoring during, 1965: Dec., 461
 of coronary vessels, indications for, 1964: Dec., 377-394
 pancreatic, in diagnosis of malignant lesions, 1965: Dec., 568
 preoperative, value of, 1965: Dec., 586-595
 pulmonary, in children, 1964: Dec., 573

Angiography (Continued)
 pulmonary, in evaluation of lung neoplasms, 1965: Dec., 535
 special techniques in management of abdominal neoplasms, 1965: Dec., 583-599
 splenic, in diagnosis of malignant lesions, 1965: Dec., 581

 technique(s), 1965: Dec., 389
 industrial film vs. nonscreen film, 1965: Dec., 390-392
 processing of film, 1965: Dec., 393
 rapport between roentgenologist and pathologist, 1965: Dec., 399
 some remarks on, 1965: Dec., 389-401
 training of technicians, 1965: Dec., 392-394, 399
 Mandible, dislocation, 1966: Aug., 362
 fractures, 1966: Aug., 357
 radiographic changes in sickle cell anemia, 1964: Aug., 251
 Manometry, intraluminal, in presbyesophagus, 1965: Aug., 321, 322
 Marie-Strümpell disease, cervical, 1966: April, 157
 Mastopathy, mammography in diagnosis, 1965: Dec., 394
 Maxilla, fractures of, 1966: Aug., 346
 radiographic changes in sickle cell anemia, 1964: Aug., 251
 Meckel's diverticulum. See *Diverticulum, Meckel's*.
 Mediastinum, enlargement, in traumatic hemopericardium, 1966: Aug., 392
 hematoma, in traumatic rupture of thoracic aorta, 1966: Aug., 404, 406
 Megacolon, toxic, in ulcerative colitis, 1964: April, 45
 Megoureter-megacystis syndrome, neonatal, 1965: April, 160
 Meigs' syndrome, 1964: April, 170
 Meiosis, 1964: Aug., 282, 299
 Melanoma, lymphangiographic interpretation, 1965: Dec., 480
 Meningioma, anterior clinoid, 1966: April, 105
 cerebral angiographic findings, 1964: Dec., 533
 intraspinal, 1966: April, 185
 of clivus, 1966: April, 112
 parasagittal, ballooning of calvarium due to, 1966: April, 48
 planum sphenoidale, sella turcica, changes due to, 1966: April, 103
 sella turcica changes due to, 1966: April, 88
 tuberculum sellae, sella turcica changes due to, 1966: April, 103
 Meningoencephalocele, skull changes due to, 1966: April, 17
 Mercury, radioactive, therapy in aged persons, 1965: Aug., 272
 Mesentery, involvement in blunt abdominal trauma, 1964: April, 136
 vascular disease of, chest roentgenogram in diagnosis of, 1964: April, 10
 vascular occlusion of, gas patterns in, 1964: April, 71
 Metacarpal bones, dislocation, 1966: Aug., 270
 Metacarpal sign, in roentgen diagnosis of gonadal dysgenesis, 1964: Aug., 304
 Metaphysis, avulsion, in battered child syndrome, 1966: Aug., 289
 chip fractures, relation to severe epiphyseal injury, 1966: Aug., 255
 fractures, due to congenital syphilis, 1966: Aug., 296
 Metatarsal bone, fatigue fracture, 1966: Aug., 277
